TRAFFIC COMPLAINT / ENFORCEMENT INFORMATION

As of **November 2025**, the Yorkville Police Department had received traffic concerns for various locations in town. These concerns were established through both citizen concerns and areas of concern for the department. All citizen concerns were tracked for potential issues. In some cases to verify that the concerns needed to be further addressed, (5) five years of crash data was researched. In addition, these locations were further researched by utilizing the department's speed signs. These speed signs were able to collect traffic data related to traffic counts, speed data, and various times of day of violations. In addition, the department also relied upon its partnership with EEI.
