Subject: FW: Yorkville Well 9

Eric - no memo needed. This will be fine. Before Tuesday, I'll need Tom Healy to tell us if he'll need a formal authorization letter for signature (similar to how we've done the last two pieces). If so, I'd just like to make sure that's complete and in line with your email below by Tuesday evening.

Jori and Lisa - you can place this email verbatim in the packet as the backup material.

Subject: RE: Yorkville Well 9

Bart,

With the retrieval of the pump, motor and pipe, we now need to take the next step in the repair of well 9. I would recommend that we proceed with phase III of the well 9 emergency repair and authorize Layne to proceed with the following work items:

Disassemble, clean & inspect pump in yard, est.
\$3,300.00

Conduct 2nd TV survey to look for any remaining pump components, lump sum
\$1,700.00

Hypot test the power cable, lump sum
\$ 675.00

Potential extra cleaning of pipe for deeper inspection, due to failed connection(are there others?), 6 hrs. @ \$355/hr. \$2,130.00

More thorough inspection of 400HP Byron Jackson Type H motor, due to the fall to bottom, est. \$ 975.00

More thorough inspection of Byron Jackson cast iron bowl, due to the fall to bottom, est. 8 hrs. @ \$177/hr. \$1,416.00

Ø Disassemble, clean & inspect pump in yard, est.
\$3,300.00

Ø Conduct 2nd TV survey to look for any remaining pump components, lump sum
\$1,700.00

Ø Hypot test the power cable, lump sum
\$ 675.00

Ø Potential extra cleaning of pipe for deeper inspection, due to failed connection(are there others?), 6 hrs. @ \$355/hr. \$2,130.00

Ø More thorough inspection of 400HP Byron Jackson Type H motor, due to the fall to bottom, est. \$ 975.00

Ø More thorough inspection of Byron Jackson cast iron bowl, due to the fall to bottom, est. 8 hrs. @ \$177/hr. \$1,416.00

TOTAL PHASE 3 ESTIMATE
\$14,908.00

Tom, this process is always so hard to be totally right on, as we may see things as we do the work that require attention and some added work. But I have tried to be conservative here.

Also, we discussed using the Well 4 rates from last year but they all do not really apply here. First, the labor rates went up slightly last fall and some parts of this work scope are not the same or don't apply here. Like the mob of the pump to our yard - it is much more involved on this job.

If you have any questions, please give me a call.
