Dear Residents and Business Owners,

The COVID-19 virus has changed our lives in many ways. Our conversations, our shopping habits, our gatherings, and our thoughts are now centered around health precautions.

Our continued desire is to provide residents the city-services that are expected and that they are used to having. The city website has current information, phone numbers, and communication notices from the city, county, state, and national leaders. It would be advisable to check it often.

Our current plans are to hold meetings of our City Council, as usual, in our Council Chambers. We will be inviting public participation through "virtual attendance". We are working on a platform and will get that information out to the public soon.

It is humbling to see all the kindness displayed through this troubling time. We are an exceptional community. We will all come through this together.

John Purcell
Mayor
